

Section insulator ETB 1200 V non-bridging for 1 grooved contact wire, 102 mm² center piece insulated

Item number B0786-05

Dimensions

length: 819 mm
width: 190 mm
height: 87 mm
length of suspension above eyes: 589 mm
width of suspension above eyes: 116 mm
length between the contact line: 589 mm

Material and weight

material: INOX / GFK / PA / BZ / ST tzn
weight: 6.3 kg

Loads

service load: 15 kN
breaking load: 39.6 kN

Applicable standards

EN 60383-1: 1996
DIN EN 61109: 2006
EN 50119: 2009/A1: 2013

Function

For the electrical separation of adjacent contact line sections.

Specification

operating voltage: 1200 V DC
kerf width: 5.6 mm
creepage distances: 375 mm
arcing horn distance: 369 mm
contact-wire cross-section: 102 mm²
