

Disconnect switches with interlocking, without protection section, with line insulator and red signal, to trapeze

Item number B1162-01

Dimensions

length: 660mm
length 1 (width of double cross-span): 600mm
width: 80mm
height 1 (closed): 295mm
height 2 (open): 615mm

Material and weight

material: Cu/INOX/St tzn, plastic
weight: 8.100 kg

Loads

tightening torque: M12 : 57Nm

Function

function: Mechanical switchgear which separates overhead contact line sectors while switch is in open position

Specification

operation voltage: 1500 V DC / 600A

Comments

Do not switch disconnecter on load operation!
