

Synthetic cable with parallel fibers, Parafil type A, Ø = 11.0 mm

Item number E1677-01

Dimensions

Ø1: 11 mm

Material and weight

Weight: 0.091 kg/m

Loads

Breaking load: 20 kN

Specification

Color of the fiber: white

Fiber core: Polyester

Color of the sheath: black

Comments

- Rope construction:

The ropes consist of a closely packed core of high strength synthetic fibres lying parallel to each other and

encase in a tough and durable polymeric sheath (Parafil ropes) or polyamide (Minoroc ropes)

- Insulating

- Weathering resistant

- Corrosion resistant
