

# Synthetic cable with parallel fibers, Parafil type A, Ø = 13.5 mm

Item number E1677-02

## Dimensions

Ø1: 13.5 mm

## Material and weight

Weight: 0.145 kg/m

## Loads

Breaking load: 35 kN

## Specification

Color of the fiber: white

Fiber core: Polyester

Color of the sheath: black

## Comments

- Rope construction:  
The ropes consist of a closely packed core of high strength synthetic fibres lying parallel to each other and encase in a tough and durable polymeric sheath (Parafil ropes) or polyamide (Minoroc ropes)
- Insulating
- Weathering resistant
- Corrosion resistant
