

KUWRAP Insulation 1.5 kV

Item number 121080, 121081, 121082, 121083

Material and weight

Material: GRP / GFRP

Weight: 1.4 kg (per 3000 mm profile)

Colour: RAL 7040 (light gray)

Material and weight

Contact wire cross-sections: 80 mm² to 120 mm²

Nominal voltage: 1.5 kV A/C, 1.5 kV D/C

Lightning impulse voltage resistant: 15 kV (dry and sprinkled)

Applicable standards

EN 50124-1 and IEC 60060-1

Comments

Always specify set number (see product flyer) and quantity when ordering:

Sets	Set number	Description
Set 0	121080	Insulating wrap, installed length up to 3 m (without fasteners)
Set 1	121081	Installation set, installed length up to 3 m (with fasteners)
Set 2	121082	Installed length up to 5,8 m (with fasteners)
Set 3	121083	Installed length up to 8,8 m (with fasteners)

In principle, any (straight) contact wire length can be insulated. For a more detailed description, please refer to the downloads.
