Insulation tube slited

Item number 300020

Material and weight

Weight: 0.550 / m kg

Material: rubber (EPDM; DIN ISO 1629)

Specification

Density[1)]:
1.48 g/cm3 (DIN EN ISO 1183-1)

Hardness[1)]:
69 Shore A (DIN ISO 7619-1)

Tensile test[2)]:
tear resistance 5.2 N/mm^2 (ISO 37/DIN 53 504)

Notes:

[1)] 6 mm thick test specimens at 10 min. 170°C

[2)] 2 mm thick test specimens at 10 min. 170°C

- further specifications available on request

Comments

- for flexible contact wire insulation

- provides protection for cables, strands and conductors against electrical, thermal and mechanical stress

- for rigid contact wire insulation, we recommend our KUWRAP up to 1.5kV
  (Item numbers 121 080 to 121 083)

Comments

For contact wire insulation with insulation tube
