

Tester for motor 24 V DC

Item number 302234

Dimensions

Gehäuse: 190 mm x 190 mm x 100 mm

Material and weight

Material: Polystyrol

Weight: 2.000 kg

Function

With the motor testing unit it is possible to test the 24 V DC drives on the switch and crossing unit.

Specification

Ambient temperature store: -40° C up to +40° C

Ambient temperature service: -20° C up to +60° C

Operating voltage: 20-24 V DC

Current requirement: Leerlauf 0 A

Type of protection: IP 00

Plug: 6-pol Stecker

Comments

- not security-relevant
- not UV-resistant
- The tester contains rechargeable batteries
- Successor product of tester with part no. 301676
