

Switch U88 electronic, 10° asymmetric, left 600 V DC for grooved contact wire 100-107 mm², left hand turnout

Item number 800052

Specification

Switch assembly: asymmetric left
Crossing piece: 10° electronic left

Comments

- The insulation can be installed in any desired direction of travelling. In the above shown installation it is installed in turnout
- With the respective control, this installation can also be installed as a trailing switch (left hand

execution for run-in from the right)

- The switch direction is determined by the control
- Auxiliary material included
- Without control and cabling
- Without fixed terminations for grooved contact wire, supporting network and suspension
- Switches for additional grooved contact wires on request
- Detailed installation plans can be requested for each delivery of this assembly
